The meeting was called to order at 10:05 AM

Mr. Kaminski investigated and there is no definition of an *adult immunization* in the FDA code.

Mr. Holst investigated other state laws and noted that the Virginia Law had language that may be able to be used in Delaware if necessary.

The Committee reviewed the current Regulation 14 and determined that the law was not a conflict and that a pharmacist may immunize for any age, where an adult dose is appropriate, according to Del. Code 2502 and manufacturer guidelines.

Mr. Dryden advised the Committee there has been some recent updates regarding the recordkeeping of the immunizing pharmacists. He put a list of pharmacists, who are qualified to immunize, in the NABP newsletter. A continually updated list was created for the website, and it will also be printed on the actual license.

The meeting adjourned at 10:55 AM.

Respectfully submitted,

Nancy Fields, Administrative Specialist II
